

Date: _____

Dear Doctor,

_____ has been interviewed as a participant for St. Mary Magdalen Adult Day Care Center. This Center is designed to provide a continuum of care and services for the functionally impaired older person in order to prevent or defer unnecessary institutional placement.

The care plan coordinated for your patient consists of: RN supervision, a secure protected environment, socialization, nutritious meals, physical and mental stimulation, and activities.

We'd very much appreciate your help in providing pertinent medical information by completing the enclosed Physician's Assessment and by including, on a separate sheet of paper, any additional information that would help us continue to respond to your patient's needs.

Sincerely,

Phyllis Fox, RN
Director
